Technology Committee

Purpose: To oversee and maintain all telecommunication and audio-visual infrastructure. This includes the programs and technology subscriptions needed to run the sanctuary and office, along with microphone, sound systems, television screens and all other audio-visual needs of the Church.

To accomplish this, the Technology Committee will:

- Be formed as a committee with a chairperson and multiple committee members.
- Prepare a written annual report to the congregation.
- Communicate with the Sunday Services Committee to provide training in staffing the sound and Zoom stations on Sundays.
- Seek Board approval when needed for spending to expand or upgrade technology assets.

Date Approved: 11-13-2024
